INNEHÅLL

Sid.

AKDIK, SARA and MÜNTZING, ARNE, New cases of segmental interchange and some other meiotic irregularities in rye 67

BONNIER, G. and LÜNING, K. G., Studies on X-ray mutations in the white and forked loci of *Drosophila melanogaster*. I. A statistical analysis of mutation frequencies 163

BONNIER, G., LÜNING, K. G. and PERJE, ANN MARGRET, Studies on X-ray mutations in the white and forked loci of *Drosophila melanogaster*. II. A study of the formation of gynandromorphs and other kinds of mosaics 301

EHRENBERG, L., GUSTAFSSON, Å., LEVAN, A. and VON WETTSTEIN, U., Radiophosphorus, seedling lethality and chromosome disturbances 469

EKDAHL, IVAR, Gigas properties and acreage yield in autotetraploid *Galeopsis pubescens* 397

EKLUNDH EHRENBERG, CARIN, Studies on asynapsis in the elm, *Ulmus glabra* HUDS. 1

FEDERLEY, HARRY, Meiosis and intersexuality in reciprocal *Drepana* hybrids (Lep.) 49

GAJEWSKI, W., On the behaviour of univalents at meiosis in some interspecific *Geum* hybrids 221

GRANHALL, I., GUSTAFSSON, Å., NILSSON, FR. and OLDÉN, E. J., X-ray effects in fruit trees 269

GUSTAFSSON, ÅKE and NYBOM, NILS, Colchicine, X-rays and the mutation process 280

HEDLUND, T., Notes on the appearance of new biotypes closely related to *Malva parviflora* L. 507

HÅKANSSON, ARTUR, Supernumerary chromosomes in *Godetia viminea* 375

JOHNSSON, HELGE, Studies on birch species hybrids. I. *Betula verrucosa* × *B. japonica*, *B. verrucosa* × *B. papyrifera* and *B. pubescens* × *B. papyrifera* 115

KÖLMARK, G. and WESTERGAARD, M., Induced back-mutations in a specific gene of *Neurospora crassa* 490

LAMM, ROBERT, Contributions to the genetics of the *Gp*-chromosome of *Pisum* .. 203

LEVAN, ALBERT and LOTFY, THORAYA, Naphthalene acetic acid in the *Allium* test 337

LIMA-DE-FARIA, A., The structure of the centromere of the chromosomes of rye 77

— Genetics, origin and evolution of kinetochores 422

MÜNTZING, A. and LIMA-DE-FARIA, A., Pachytene analysis of standard fragments and large iso-fragments in rye 253
NORDENSKIÖLD, HEDDA, Synthesis of *Phleum pratense* L. from *P. nodosum* L. .. 190
NYGREN, AXEL, Studies on vivipary in the genus *Deschampsia* 27
— Experimental studies in Scandinavian alpine plants. I. Ecotypical differentiation in *Melandrium angustiflorum* (RUPRECHT) WALPERS 215
— Apomictic and sexual reproduction in *Calamagrostis purpurea* 285
THERMAN-SUOMALAINEN, EEVA, Investigations on secondary constrictions in *Polygonatum* 86
VAARAMA, ANTERO, Spindle abnormalities and variation in chromosome number in *Ribes nigrum* 136
WICKBOM, TORSTEN, Further cytological studies on Anura and Urodela 33
ÖSTERGREN, GUNNAR, *Luzula* and the mechanism of chromosome movements ... 445

ABSTRACTS — KURZE MITTEILUNGEN.

JENSEN, K. A., KÖLMARK, G. and WESTERGAARD, M., Back-mutations in *Neurospora crassa* induced by diazomethane 521
JOHNSSON, HELGE, Hereditary precocious flowering in *Betula verrucosa* and *B. pubescens* 112
KIHLMAN, BENGT, The effect of purine derivatives on chromosomes 393
KIHLMAN, BENGT and LEVAN, ALBERT, The cytological effect of caffeine 109
LÖVE, ASKELL, Agamospermy in *Acetosa* 390
OLSSON, NILS and WADNE, CARL, A mutation in chicken 111
SMITH, GUDMUND, A new methodical aspect in psychological genetics 248
THERMAN-SUOMALAINEN, EEVA, The action of pyrogallol on secondary constrictions 250
VAARAMA, ANTERO, The chromosome number of *Fumaria officinalis* 251
WICKBOM, TORSTEN, A new list of chromosome numbers in Anura 242
— The time factor of chromosome spiralization 245
ÖSTERGREN, GUNNAR, A survey of factors working at mitosis 525
